Instructor Evaluation Form
Department of Statistics and Probability
Michigan State University

Instructor Tom Luhning Course ST 224 Semester Spring ²⁰¹⁵
Format (Mark One) Lecture/Recitation Small Class Year 2015

To the student: The results of these forms will be used by the Department of Statistics and Probability to help evaluate the teaching performance of faculty. The quality of teaching is part of the criteria used for Promotion and Tenure, annual Faculty Evaluation, and various departmental and university awards. The results of this form will be made available to the instructor after final grades have been assigned and sent to the Registrar.

1. Evaluate this instructor in each of the following categories.

Ability to explain the subject

excellent above average average below average poor

Preparedness

excellent above average average below average poor

Organization

excellent above average average below average poor

2. What is your overall rating of this instructor?

excellent above average average below average poor

3. Indicate the degree of difficulty of this course.

too demanding challenging moderately difficult fairly easy too easy

Please respond to questions on back.

4. Indicate your level of interest in the material and concepts presented.

very high high average low very low

5. What is your overall GPA?

3.4-4.0 2.8-3.3 2.3-2.7 2.0-2.2 1.9 or less

6. Would you recommend this instructor to another student? Explain.

yes, Tom makes the class fun
and enjoyable, especially when
clearing w/ starts... A not
so fun subject.

The Michigan State University **CODE OF TEACHING RESPONSIBILITY**, which is stated in the Academic Programs book, holds all instructors to certain obligations: course content consistent with approved descriptions, timely statement of course objectives and grading criteria, regular class attendance, published office hours, and timely return of examinations and term papers.

It is the policy of MSU to keep faculty members' SIRS ratings confidential to the extent possible. However, certain SIRS ratings may be subject to disclosure under state or federal law.

Instructor Evaluation Form

excellent above average average below average poor

Organization

excellent above average average below average poor

2. What is your overall rating of this instructor?

excellent above average average below average poor

3. Indicate the degree of difficulty of this course.

too demanding challenging moderately difficult fairly easy too easy

Please respond to questions on back.

4. Indicate your level of interest in the material and concepts presented.

very high high average low very low

5. What is your overall GPA?

3.4-4.0 2.8-3.3 2.3-2.7 2.0-2.2 1.9 or less

6. Would you recommend this instructor to another student? Explain.

Yes. He teaches with great enthusiasm
and uses funny jokes. He cares about
his students and wants them to learn.
Very nice guy. enjoy this class.

The Michigan State University **CODE OF TEACHING RESPONSIBILITY**, which is stated in the Academic Programs book, holds all instructors to certain obligations: course content consistent with approved descriptions, timely statement of course objectives and grading criteria, regular class attendance, published office hours, and timely return of examinations and term papers.

It is the policy of MSU to keep faculty members' SIRS ratings confidential to the extent possible. However, certain SIRS ratings may be subject to disclosure under state or federal law.

Instructor Evaluation Form
Department of Statistics and Probability
Michigan State University

Instructor LUHRING Course STATSPOR ECOLOGISTS Semester SPRING

Format (Mark One) Lecture/Recitation Small Class Year 2015

To the student: The results of these forms will be used by the Department of Statistics and Probability to help evaluate the teaching performance of faculty. The quality of teaching is part of the criteria used for Promotion and Tenure, annual Faculty Evaluation, and various departmental and university awards. The results of this form will be made available to the instructor after final grades have been assigned and sent to the Registrar.

1. Evaluate this instructor in each of the following categories.

Ability to explain the subject

excellent above average average below average poor

Preparedness

excellent above average average below average poor

Organization

excellent above average average below average poor

2. What is your overall rating of this instructor?

excellent above average average below average poor

3. Indicate the degree of difficulty of this course.

too demanding challenging moderately difficult fairly easy too easy

Please respond to questions on back.

4. Indicate your level of interest in the material and concepts presented.

very high

excellent above average average below average poor

3. Indicate the degree of difficulty of this course.

too demanding challenging moderately difficult fairly easy too easy

Please respond to questions on back.

4. Indicate your level of interest in the material and concepts presented.

very high high average low very low

5. What is your overall GPA?

3.4-4.0 2.8-3.3 2.3-2.7 2.0-2.2 1.9 or less

6. Would you recommend this instructor to another student? Explain.

Yes I would recommend this instructor to another student because he makes class fun and interesting.

The Michigan State University **CODE OF TEACHING RESPONSIBILITY**, which is stated in the Academic Programs book, holds all instructors to certain obligations: course content consistent with approved descriptions, timely statement of course objectives and grading criteria, regular class attendance, published office hours, and timely return of examinations and term papers.

It is the policy of MSU to keep faculty members' SIRS ratings confidential to the extent possible. However, certain SIRS ratings may be subject to disclosure under state or federal law.

Instructor Evaluation Form
Department of Statistics and Probability
Michigan State University

Instructor Luhring Course STT224 Semester S15

Format (Mark One) Lecture/Recitation Small Class Year 2015

To the student: The results of these forms will be used by the Department of Statistics and Probability to help evaluate the teaching performance of faculty. The quality of teaching is part of the criteria used for Promotion and Tenure, annual Faculty Evaluation, and various departmental and university awards. The results of this form will be made available to the instructor after final grades have been assigned and sent to the Registrar.

1. Evaluate this instructor in each of the following categories.

Ability to explain the subject

excellent above average average below average poor

Preparedness

excellent above average average below average poor

Organization

excellent above average average below average poor

2. What is your overall rating of this instructor?

excellent above average average below average poor

3. Indicate the degree of difficulty of this course.

too demanding challenging moderately difficult fairly easy too easy

Please respond to questions on back.

4. Indicate your level of interest in the material and concepts presented.

very high high average low very low

5. What is your overall GPA?

3.4-4.0 2.8-3.3 2.3-2.7 2.0-2.2 1.9 or less

6. Would you recommend this instructor to another student? Explain.

yes, he is able to make
the class fun. My
favorite professor so
far
